### **LIVESTOCK DEPARTMENT SHOW RING CODE OF ETHICS**

Believing it is in the best interest of all breeders of all livestock to maintain a reputation of integrity and to continue to present a wholesome and progressive image in the show ring, the Board of Directors of the Okmulgee County Spring Livestock Show lists herewith those practices which are considered unacceptable in presenting livestock in the show ring. The use of such practices or procedures is, therefore, considered unethical in the show ring of livestock at the Okmulgee County Spring Livestock Show.

1. Misrepresenting the age of the animal for the class in which it is shown.
2. Treating or massaging any part of the body internally or externally with an irritant, counter-irritant, or other substance to temporarily straighten a weak back or loin or to produce unnatural animation.
3. Minimizing the effects of crampiness by feeding or injecting drugs, depressants, or applying packs or by using any artificial contrivance or therapeutic treatment excepting normal exercise.
4. Striking the animal to cause swelling in a depressed area.

5. **Surgery of any kind performed to change the natural contour or appearance of the animal's body and hide or hair. Not included is the removal of teats and horns, clipping and dressing of hair and trimming of hooves.**
6. **Insertion of foreign material under the skin.**
7. **Any attempt to change breed characteristics of any animal by changing the color of hair, fleece or skin at any point, spot or area on the animal's body.**
8. **The use of alcoholic beverages in the feed or administered as a drench.**
9. **Administration of a drug of any kind or description internally or externally prior to entering the show rings, except for treating a recognized disease or injury. For the purposes of the rules, the term "drug" shall mean - any substance, the sale, possession or use of which is controlled by license under federal, state or local laws or regulations and any substance commonly used by the medical or veterinary professions which affect the circulatory, respiratory or central nervous system of an animal.**

Probation, disqualification, expulsion or other disciplinary action of the Management will be final. Such action will require application for re-admission under such terms as the Management may prescribe before the violator is allowed to exhibit at future events.
